Conveniently located just a short walk from the newly renovated Smith & 9th street F/G train station, and accessibly tucked away from the Hamilton Avenue onramp to the BOE, a cozy oasis of comfort and safety awaits you. What better location to enjoy a fine glass of wine with friends than in this sun soaked storefront on gorgeous Huntington Street? Take a short stroll to Court Street and see the world-class dining and brunch options the neighborhood has to offer. Dash into the city through the easily accessible Battery Tunnel, and find yourself in downtown Manhattan in minutes. Make a day of it and enjoy beautiful Prospect Park and the famous landscaping of Greenwood Cemetery. The nearby riverfront factories in Red Hook and Industry City preserve turn-of-the-century industrial architecture featuring exposed brick and oak beams, a splendid framework for the host of newly renovated shops and studios where local artists and entrepreneurs ply their trade. This unit promises a world of wonders just outside your doorstep.
